

***Rugged. Powerful. Extraordinary.***

Maruyama brushcutters are unique for what they do. They are rugged and dependable commercial-grade equipment for every day all day use. Maruyama doesn't skimp or cut corners. They don't overlook the details just because they aren't obvious.

The brushcutters are top quality with unmatched dependability. People who depend on their equipment day in and day out should demand the best and that is what Maruyama provide.

Maruyama proudly celebrates more than 125 years as an industry changing manufacturing company.

Maruyama began as a family business manufacturing fire extinguishers in 1895. The Uchiyama family then started to produce manual sprayers in 1918. With their development of the power sprayer in 1933, Maruyama played an important role in disaster control and prevention.

For over a century, Maruyama has been a world leading manufacturer of disaster relief and prevention equipment, creating high quality pressure industrial pumps, sprayers and commercial-grade 2-stroke hand-held outdoor power equipment.

# BRUSHCUTTERS

Maruyama are exceptionally reliable Japanese brushcutters. Designed with user comfort in mind, groundbreaking design solutions have been used to reduce the weight of the machines. The brushcutters are powered by Maruyama's own AE/NE series of powerful and efficient engines, delivering high torque power, and are designed for long-term use season after season.

**MX22E**

Due to its very light weight, the MX22E is ideal for domestic users. Supplied with tap & go head, blade and shoulder strap.

- Displacement: 22.5 cc
- Maximum Power: 0.77 kW
- Dry weight: 4.3 kg
- Fuel tank: 0.5 L
- Vibration levels: F 6 m/s<sup>2</sup> R 3.7 m/s<sup>2</sup>

**MX27E**

A powerful mid-range brush cutter, suitable for both domestic and professional users. Supplied with tap & go head, blade and shoulder strap.

- Displacement: 25.4 cc
- Maximum Power: 0.87 kW
- Dry weight: 4.7 kg
- Fuel tank: 0.55 L
- Vibration levels: F 5 m/s<sup>2</sup> R 2.9 m/s<sup>2</sup>

**MX27EH**

Designed with convenience and the greatest possible user comfort in mind. Supplied with tap & go head, blade and shoulder strap.

- Displacement: 25.4 cc
- Maximum Power: 0.87 kW
- Dry weight: 5.0 kg
- Fuel tank: 0.55 L
- Vibration levels: L 3.5 m/s<sup>2</sup> R 2.7 m/s<sup>2</sup>

**MX36EH**
